New Huron IRB Submission Software Live

Jan. 4, 2019 -- The new Huron IRB software program is now live and can be accesses at http://apps.research.ucf.edu/ and through the IRB's website http://www.research.ucf.edu/compliance/irb.html.

Huron IRB replaces iRIS, and will facilitate high-quality, compliant reviews of research involving human subjects at UCF. Please discontinue using iRIS, unless directed by the IRB staff. All new submissions must use the updated IRB templates available on the http://www.research.ucf.edu/compliance/IRB/Investigators/forms.html.

Training material for using the new system is available within the Huron IRB Help Center. Additionally, if you experience any technical issues related to using the new system, please contact the Help Desk at gritservicedesk@ucf.edu for assistance.
